## The MJW Team and COVID-19 MEMO

As the COVID-19 outbreak continues to evolve, we want to inform you that MJW and our divisions under Metro Jet Wash Corporation are doing everything to support our customers, employees and the community through this difficult time. MJW has formed a committee to research, discuss and implement safety measures during this outbreak to keep the safety of everyone at the highest priority. Our corporation has and will be continuing to follow guidelines and protocols relative to the Public Health, Health Canada and the World Health Organization. Our COVID-19 Committee will continuously meet and closely monitor these guidelines on an ongoing basis.

MJW understands that we offer essential services to the community and our customers and will remain open for these necessary services. In an effort to continue our essential services we will have certain measures mandatory to our day by day operations.
